Hawaiian Dreams

We all dream of that secluded island getaway.

The difference with my dreams about island getaways is that I usually furnish them too!

Here are a few items that could turn your bedroom into a

Hawaiian Dream.

Vintage Hawaiian fabric cushions from Scarolas Upholstery

*Limed teak and black linen bedhead from CompletePad.com.au.
Bonfire Rainforest wallpaper by wallcandy.com.au*

Bedside table and collection of lovelies from Domayne and Osron & Blake

Awesome eBay finds!
I would bid my house for this stunning teak sideboard with cane detail. And what about the gorgeous vintage citrus yellow Peacock Chair from eBay store; the monster at no 14.
